ABOUT US

I NEED YOU Hamburg Readers

The name says it all. Our goal is to provide people with the beginning of presbyopia with exactly what they need: reading glasses that match their prescription. Founded in Hamburg in 1993, we have over 30 years of expertise in the optics industry and offer a comprehensive range of high-quality ready readers. Our product portfolio reflects a wide variety of styles: from timeless to fashionable, from subtle to unique – and a certain Hanseatic flair hovers over all of this. By introducing the first frames made of recycled material we consistently follow the trend for sustainability eyewear.

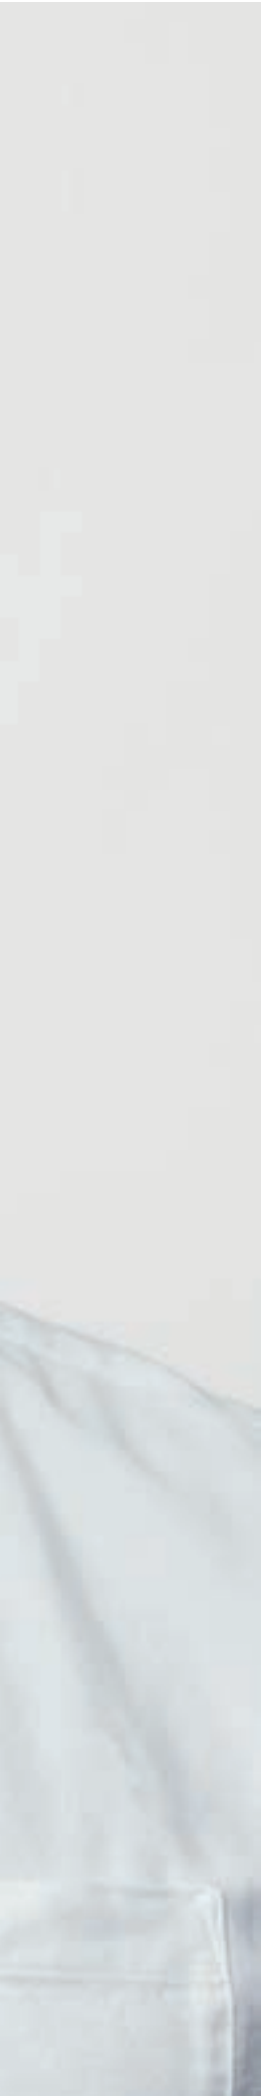

Available from optical retailers or from selected partners.
