Add a little Fantasy ***

see the world with kid's eyes. Imagination helps children explore their environment. By inventing creatures or adventure stories, children gain creativity and flexibility. They have the skills to make up a game in any place and this fosters their adaptability to any new situation they may encounter.

Flexibility and adaptability are just as important for children as they are for our glasses: robust frames and flexible temple ends ensure that children have free rein in their imaginative play and do not feel restricted by anything.

WHY

We believe all children should feel free to play, run, jump, explore and play the way they want. Feel good about themselves and feel free to be who they are. No matter of age, gender or skin colour.

HOW

By designing and producing attractive, functional and affordable products which help kids with glasses to play the way they want and feel free to be themselves. Products that are responsibly produced and available for every child.

WHAT

REACH-proof produced kids eyewear made of TR-90 material for the temples. Plasticiser-free TPE material for the frames make them flexible, lightweight and resistant enough to stand children's everyday activities. With a cool design, trendy colours, a consumer-friendly price and a young, fresh, non-childish brand concept.
